BACKGROUND

The property is generally located north of Exchange Parkway and west of Bray Central Drive. The property to the north is Phase 2 of the Ablon at Twin Creeks project and is zoned Planned Development No. 108 for Multifamily (MF-24). The property to the east (across Bray Central Drive) is zoned Planned Development No. 108 Mixed Use (MIX). The property to the south (across Exchange Parkway) is zoned Planned Development No. 54 Multifamily (MF). The property to the west is zoned Planned Development No. 54 for Medium Density Single Family Residential (MDSF).

The Final Plat is approximately $15.5677\pm$ acres and shows three lots. Lot 1 will be used for Phase 1 of the Ablon at Twin Creeks multifamily project. Lots 2X and 3X are within the floodplain and will be owned and maintained by the City of Allen. There are two access points into the site. One access point is located on Bray Central Drive and the second access point is located on Exchange Parkway

A hike and bike trail will extend along Exchange Parkway and along a portion of the southwestern corner of the property. A portion of the property along Bray Central Drive will be dedicated for Right of Way (ROW). This plat also shows various utility, maintenance, drainage, and access easements.

The Final Plat has been reviewed by the Technical Review Committee and is consistent with Planned Development No. 108, the approved Preliminary Plat, and the <u>Allen Land Development Code</u>.

PLANNING & ZONING COMMISSION AGENDA COMMUNICATION

AGENDA DATE:	April 2, 2013
SUBJECT:	Consider a request to approve an alternate screening for Allen Community Baptist Church Addition, Lot 2, Block A for True Jesus Church pursuant to ALDC §7.07.4; the property being located approximately 300 ft. north of Chaparral Road and east of Jupiter Road. [True Jesus Church]
STAFF RESOURCE:	Tiffany McLeod Senior Planner
PREVIOUS BOARD/COUNCIL ACTION:	None

BACKGROUND

The property is located north of Chaparral Road and east of Jupiter Road. The property to the north and east is zoned Planned Development PD No. 13 Multifamily (MF). The property to the south is zoned Local Retail (LR). The property to the west (across Jupiter Road) is zoned Single Family Residential (R-5).

Article VII, Section 7.07.4 of the <u>Allen Land Development Code</u> (ALDC) requires an eight foot (8') masonry wall along the property line or district boundary between any nonresidential use and multifamily use. The True Jesus Church has recently submitted a Site Plan application to develop Lot 2 of the Allen Community Baptist Church Addition. This property abuts an existing multi-family development on its northern and northeastern property boundaries. Therefore, the church is required to construct an eight foot (8') masonry wall along these two boundaries in conjunction with the development of the site.

Per Section 7.07.4.e (ix), the applicant may submit a request for alternative screening to be approved by the Planning and Zoning Commission. The applicant's request consists of an eight foot (8') cedar wood fence with brick columns placed every 75 feet O.C. The front side of the proposed fence will face the church; as shown on the attached fence detail. The metal posts, on the rear side of the fence, will be sheathed with cedar wood.

STAFF RECOMMENDATION

Staff recommends denial of the request. The *ALDC* was amended in 2009 to require the screening of any nonresidential use with an eight foot (8') masonry wall. An eight foot (8') masonry wall provides a more effective screening over the long term.

Alternative Screening Request Letter Fence Design Detail Fencing Plan

March 27, 2013

- To: City of Allen Planning and Zoning Commission Allen City Hall 305 Century Parkway Allen, Texas 75013
- Re: Alternate Material Request for: True Jesus Church Project 1601 South Jupiter Road Allen, Texas 75002

Dear Ms. Tiffany McLeod,

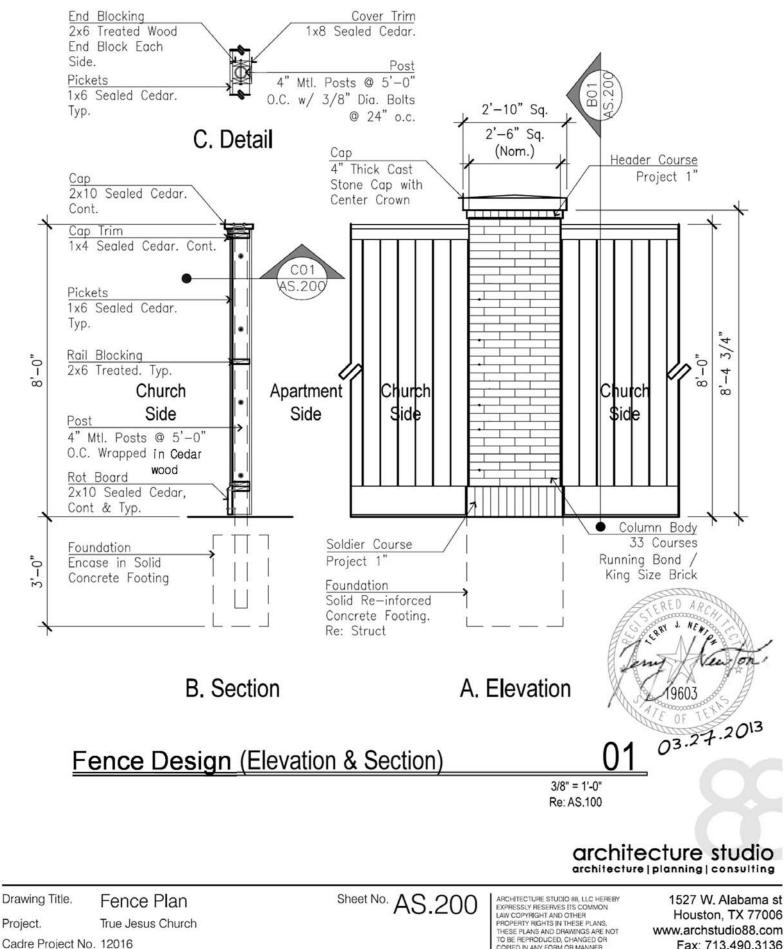

On behalf of my client this office is requesting to provide an alternate separation wall along the North and East property line in lieu of the stipulated masonry screen wall per Article VII: Section 7.07.4 ix of the Allen Land Development Code (ALDC). The reason for this request is economically driven as the church is a "Not for Profit" entity with limited funds available, and the cost of a masonry screen wall is placing a sever strain on the project's limited budget.

As such we are proposing an alternate screen wall. Please refer to the attached Architectural Sketches A.100 & A.200. The fence is 8'-0" high, and has continuous pickets to provide complete privacy. The fence has sealed cedar lumber and boards with a top cap, trim, and bottom "rot" board that provides a clean and commercial appearance. The fence will face towards the church and Jupiter Road. Every 75 linear feet we will provide a masonry column with a cast stone cap. We believe this is the appropriate design for the "Not for Profit" church, and hereby request approval of the proposed design.

Once again I thanks you for your time and efforts on this project. Please don't hesitate to contact our office at any time if you have questions or concerns over this issue.

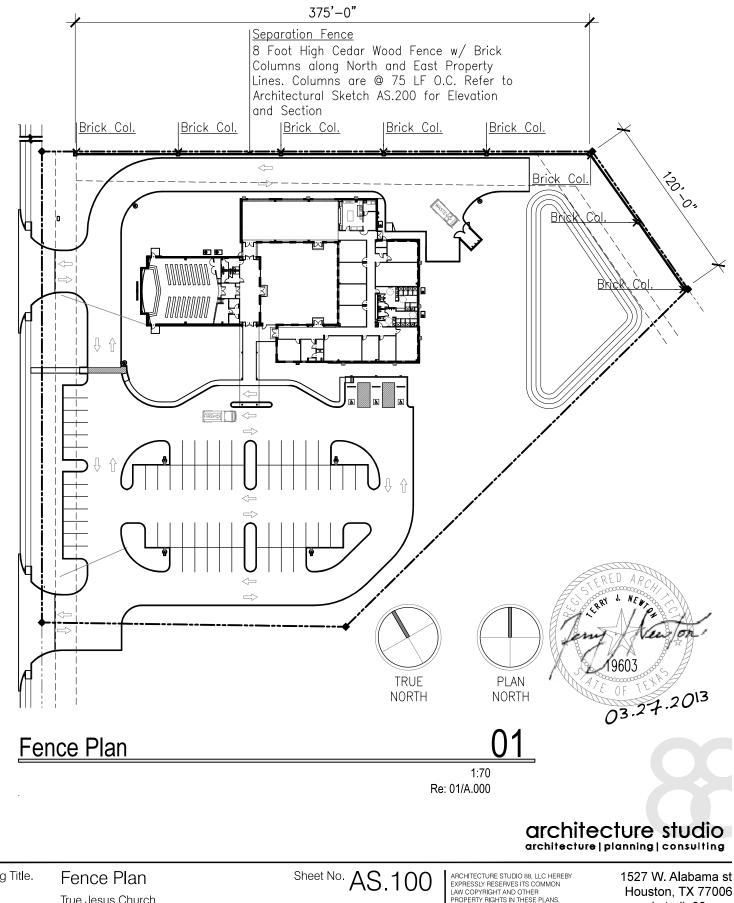

Respectfully,

Terrence J. Newton, Architect AIA, LEED BD+C Project Architect
